

Autotalks EHS Policy

Autotalks is committed to high standards of Environmental, Health and Safety (EHS) performance across our business.

To achieve the above we will:

- Comply with all applicable EHS laws and regulations
- Establish and implement EHS management system according to ISO and other globally recognized standards
- Identify, assess and manage the EHS risks and their impact on our existing and planned operations
- Promote the conservation of energy and natural resources and reduce waste
- Communicate the policy to employees, the public and interested parties
- Continuously review the policy for applicable improvements

Our policy, supporting programs, and employees are key factors in sustaining and promoting Environmental, Health and Safety culture at Autotalks.
